

Promoting the Future Creation Project to Create a Secure Future Along With Our Customers

—To Become a Life Insurer That Excels in Terms of “Scale,” “Quality” and “Credibility”—

What is the Future Creation Project?

Nippon Life is promoting the Future Creation Project, a three-year management plan to ensure that it steadily fulfills its social missions as a life insurer amid rapid upheaval in the economic environment and the structure of society. The plan is inspired by Nippon Life’s aspirations to create a secure future along with its customers.

Backed by outstanding financial soundness, Nippon Life will provide new comprehensive insurance services in order to stop the downturn in the amount of policies in force and achieve a return to growth.

Future Creation Project

Core concept embodying the combination of “More Advanced Protection,” “More Advanced IT,” and “More Advanced Support”

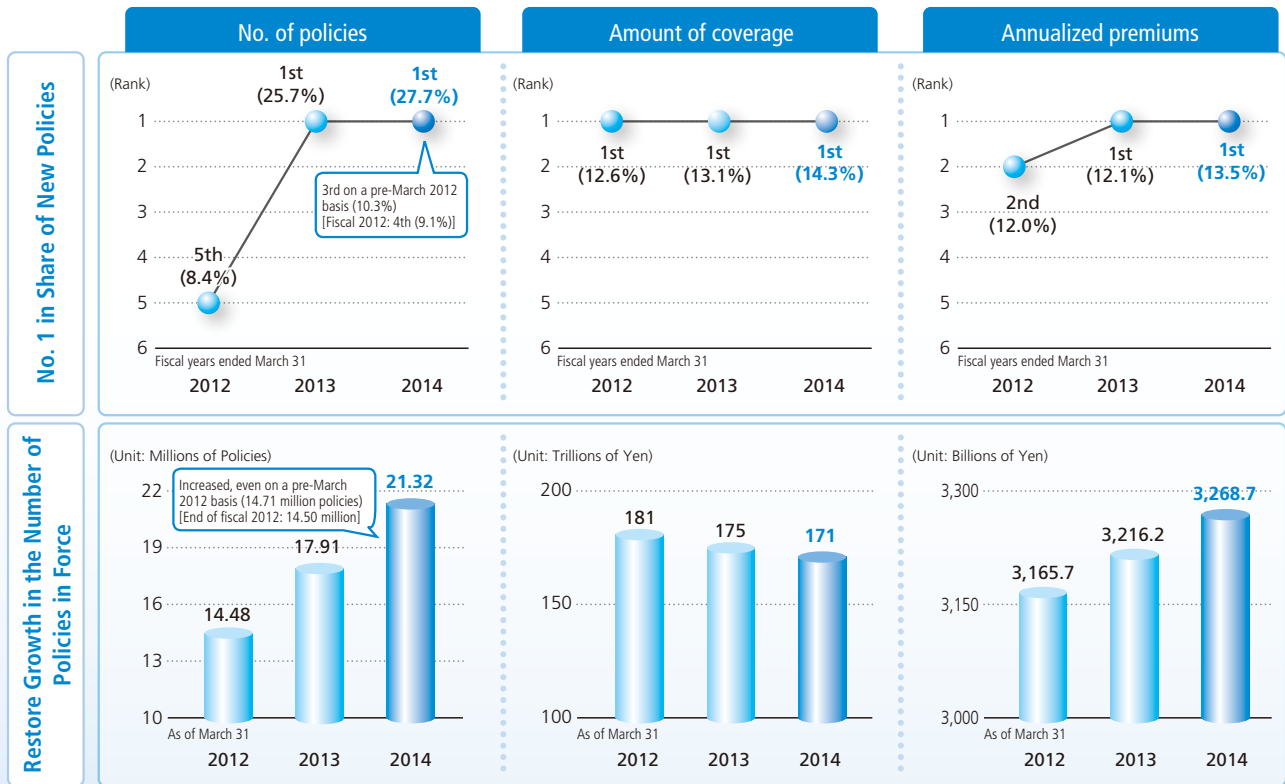

As of March 2012–

Management Goals

The Future Creation Project Fiscal 2013 Progress Report

At the end of the fiscal year ended March 31, 2014, Nippon Life had the highest share of new policies in all categories, including number of policies, insurance amount, and annualized premiums. Furthermore, the number of policies in force continued to grow from fiscal 2012. In addition, we saw our initiatives steadily bear fruit as foundation funds (*kikin*) and reserves recovered to ¥3,000 billion, and customer (policyholder) numbers also rebounded.

Notes: 1. The share of new policies was calculated by Nippon Life using the financial reports of other insurance companies (except Japan Post Insurance Co., Ltd.).
2. For insurance products sold from April 2012 onward that combine two or more policies, each policy is counted separately to determine the number of policies. "Pre-March 2012 basis" means that insurance products that combine two or more policies are counted as one policy.

<As of March 31, 2015> Return to Growth Number of customers (policyholders) 11.50 million
Number of customers (policyholders) at the end of fiscal 2013 11.55 million
