Nippon Life Insurance Company

Publication of Responsible Investment Report 2024

Nippon Life Insurance Company (President: Hiroshi Shimizu, hereinafter “Nippon Life”) has published “Responsible Investment Report 2024” to convey more detailed information on our Responsible Investment efforts to our stakeholders.

Key point in “Responsible Investment Report 2024”

- This report describes our efforts in line with our six key sustainability themes for Investment Management Unit: “Respect for Human Rights,” “Human Capital,” “Regional Economies,” “Global Health (Public Health),” “Climate Change,” and “Natural Capital.”
- This report describes our Responsible Investment principles, incorporating the concept of “System-level Risks” and “Planetary Health” that will play an important role in promoting responsible investment.
- This report describes efforts started this fiscal year, such as "Nissay Impact Investing Facility" as an internal target for “Thematic investment,” and “Nippon Life Transition Finance Framework,” published in June 2024.

Based on our philosophy of “co-existence, co-prosperity and mutual aid”, we have been carrying out investments that contribute to the public interest in addition to profitability and safety. Responsible Investment is an effort in line with this philosophy since our founding.

Through Responsible Investment, Nippon Life is committed to shaping sustainability outcomes, thus contributing to realizing of a sustainable society and expanding profits for policyholders.
